

European and International Project Management

University-style course offered by St. Pölten Institute of Higher Education in partnership with TermNet and DANUBE

The market is growing. Demand is rising.

Project managers, executives and scientists with expertise in the professional management of EU and international research and technology projects are increasingly sought after in both the private and public sectors.

European and International Project Management

- > Part-time, practical course
- > Held in blocks at weekends (Friday afternoons and all day Saturday)
- > Based on students' own projects
- > With e-learning components, group work and case studies
- > In German and English

Start: March 2007

Objective: Academic qualification of European and International Project Manager within two semesters

Cost: EUR 3,500 excluding VAT per semester
